

10 KW GIBRIYD inverter (380 V SINUSOIDAL)

12 V 132A

1. Panellarning nominal quvvati400W
2. Panellar soni 24 dona
3. Panellar o'rnatilish turi metal burchaklik asosda
4. Panellar o'rnatilish joyi bino tomi
5. Panellarning gybrid tizimga ulash tartibi mis izolyatsiyali elektr kabellar asosida
6. Gybrid tizim quvvati..... 10 000 V (10 KW)
7. Gbrid tizim fazasi va kuchlanishi 3 faza (380V)
8. Gybrit tizim ulanish manbalari..... elektr, quyosh paneli, AKB, istemolchi tarmog'i
9. Istemolchi tarmog'idagi xavfsizlik 10 000 dan yuqori kuchlanish ulanganda o'chadi
10. Akumlatorlar turlari..... 12V, 130A
11. Akumlatorlar soni 12 dona
12. Uskunalar o'rnatiladi Maxsus xonada
13. Tarmoqdagi faol ustunlik Quyosh panelida
14. Haroratga chidamliligi -15 dan +45 gacha
15. Namlikka chiqamliligi 0 dan 60% gacha
16. Panel va invertor maksimal masofasi..... 16 metr
17. Invertor va AKB lar maksimal masofasi 4 metr
